Fate of the Gods K. Massop

It began when the gods took up arms against each other. My people were charged to protect this world from the evils that threatened it. We had to protect the gateway that leads to the dead world we call Vis Vires. It was not long until one of the monsters on Vis Vires found a way back and entered this world. This monster's name is Azmond'e, and he has conquered the entire western world. His ultimate goal is to return to us with these conquered men and women, and force the divine gateway we call the Velox out of our hands. If he is successful with this plan he will call forth his entire army of demons from Vis Vires and bring them into our world. I need not explain what this will mean for all life here. I fear, we will not be able to stop him.
