Computers For Seniors For Dummies (For Dummies (Computers)) Nancy C. Muir

This task-oriented, step-by-step guide is specifically written for mature people like you, folks who are relatively new to using a computer and want to discover the basics of buying a computer, working with software, and getting on the Internet. It takes the guesswork, the confusion, and the jargon out of every aspect of getting started, from choosing the computer and software that are right for you to learning the basics of working with applications and going online, to taking advantage of all that this powerful tool has to offer. You'll discover how to: choose among desktops, laptops, PCs, and Macs; use the mouse and keyboard; find your way around the desktop; set up and use an email account; work with files and folders, numbers and finances; add a printer, scanner, or fax; take advantage of online and offline Help; have a ball with digital photos and music; browse the Web with Internet Explorer; and, connect with people online. The world is just a mouse-click away and with your shiny new computer and a little help from "Computers for Seniors For Dummies", you'll get there safe and sound in no time.
