A complete and updated catalogue of impact craters and structures in South America from 2014 is presented here. Approximately eighty proven, suspected and disproven structures have been identified by several sources in this continent. All the impact sites of this large continent have been exhaustively reviewed: the proved ones, the possible ones and some very doubtful. Many sites remain without a clear geological "in situ" confirmation and some of them could be even rejected. Argentina and Brazil are leading the list containing almost everything detected. In Bolivia, Chile, Colombia, Guyana, Paraguay, Perú, Uruguay and Venezuela only a few were observed. Only Ecuador is waiting for new discoveries. So far, the largest well stated impact site is still the Araguainha structure in Brazil with its 40 kilometers in diameter. However, two possible impact structures are larger than Araguainha: Malvinas, (with 250 kilometers in diameter) and Vichada in Colombia, (50 kilometers). This study also reports the existence of some Tertiary-Quaternary glassy impactite layers: the "escorias" and "tierras cocidas" of the pampas in Argentina.

From reader reviews:

Clair Lemanski:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each reserve has different aim or maybe goal; it means that book has different type. Some people feel enjoy to spend their time for you to read a book. They may be reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like studying a book? Sometime, individual feel need book after they found difficult problem or maybe exercise. Well, probably you'll have this Impact Craters in South America (SpringerBriefs in Earth System Sciences).

Maurice Henkel:

The book Impact Craters in South America (SpringerBriefs in Earth System Sciences) can give more knowledge and also the precise product information about everything you want. So why must we leave the great thing like a book Impact Craters in South America (SpringerBriefs in Earth System Sciences)? A number of you have a different opinion about e-book. But one aim in which book can give many facts for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or details that you take for that, you can give for each other; you could share all of these. Book Impact Craters in South America (SpringerBriefs in Earth System Sciences) has simple shape nevertheless, you know: it has great and big function for you. You can appear the enormous world by start and read a book. So it is very wonderful.

Jill Weber:

This Impact Craters in South America (SpringerBriefs in Earth System Sciences) is brand new way for you who has fascination to look for some information since it relief your hunger info. Getting deeper you on it getting knowledge more you know or you who still having little digest in reading this Impact Craters in South America (SpringerBriefs in Earth System Sciences) can be the light food for you personally because the information inside this specific book is easy to get by simply anyone. These books produce itself in the form and that is reachable by anyone, sure I mean in the e-book web form. People who think that in e-book form make them feel drowsy even dizzy this reserve is the answer. So there is not any in reading a e-book especially this one. You can find what you are looking for. It should be here for a person. So , don't miss the item! Just read this e-book style for your better life and also knowledge.

Ann Craft:

A lot of publication has printed but it is unique. You can get it by world wide web on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever through searching from it. It is identified as of book Impact Craters in South America (SpringerBriefs in Earth System Sciences). You can add your knowledge by it. Without leaving the printed book, it could add your knowledge and make a person happier to read. It is most significant that, you must aware about guide. It can bring you from one spot to

other place.
