Many people live their lives on auto-pilot, and usually don't take the time to ask if it truly serves them or not. This book delves into the spiritual holdings that most people carry around, and tools to help move beyond them. With the use of humor and personal experiences, throughout the book, these tools can be more easily applied to a broader range of individuals. It's basically a crash course in spirituality for dumbasses! For too long, spirituality has been enshrouded in an air of superiority and 'holier than thou-ness' This book aims to appeal not only to the higher ups, but also to those who are newbies, and are in dire need of guidance. After all, there is a pressing need for humanity to become more unified, and whole in order to progress. We can only move forward if we all move together in unity!
