Architecture: Form, Space, and Order Francis D.K. Ching

The Second Edition of this classic introduction to the principles of architecture is everything you would expect from the celebrated architect, author, and illustrator, Francis D. K. Ching. Each page has been meticulously revised to incorporate contemporary examples of the principles of form, space, and order—the fundamental vocabulary of every designer. The result is a beautifully illustrated volume that embraces today's forms and looks at conventional models with a fresh perspective. Here, Ching examines every principal of architecture, juxtaposing images that span centuries and cross cultural boundaries to create a design vocabulary that is both elemental and timeless. Among the topics covered are point, line, plane, volume, proportion, scale, circulation, and the interdependence of form and space. While this revision continues to be a comprehensive primer on the ways form and space are interrelated and organized in the shaping of our environment, it has been refined to amplify and clarify concepts. In addition, the Second Edition contains: Numerous new hand-rendered drawings Expanded sections on openings and scale Expanded chapter on design principles New glossary and index categorized by the author New 8 1/2 11 upright trim

In the Second Edition of *Architecture: Form, Space, and Order*, the author has opted for a larger format and crisper images. Mr. Ching has retained the style of his hand-lettered text, a hallmark of each of his books. This rich source of architectural prototypes, each rendered in Mr. Ching's signature style, also serves as a guide to architectural drawing. Doubtless, many will want this handsome volume for the sheer beauty of it. Architects and students alike will treasure this book for its wealth of practical information and its precise illustrations. Mr. Ching has once again created a visual reference that illuminates the world of architectural form.

From reader reviews:

Brian Price:

In this 21st one hundred year, people become competitive in each and every way. By being competitive right now, people have do something to make them survives, being in the middle of often the crowded place and notice by simply surrounding. One thing that often many people have underestimated it for a while is reading. Sure, by reading a e-book your ability to survive boost then having chance to remain than other is high. To suit your needs who want to start reading a new book, we give you this Architecture: Form, Space, and Order book as beginning and daily reading guide. Why, because this book is more than just a book.

Beverly McKeever:

This Architecture: Form, Space, and Order is great reserve for you because the content that is full of information for you who also always deal with world and still have to make decision every minute. This particular book reveal it details accurately using great manage word or we can point out no rambling sentences within it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but difficult core information with beautiful delivering sentences. Having Architecture: Form, Space, and Order in your hand like finding the world in your arm, facts in it is not ridiculous 1. We can say that no reserve that offer you world throughout ten or fifteen moment right but this reserve already do that. So , this really is good reading book. Hey there Mr. and Mrs. occupied do you still doubt in which?

Antoine Dejean:

In this period globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of personal references to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher that print many kinds of book. Typically the book that recommended for you is Architecture: Form, Space, and Order this book consist a lot of the information of the condition of this world now. That book was represented how does the world has grown up. The dialect styles that writer value to explain it is easy to understand. The writer made some research when he makes this book. Here is why this book ideal all of you.

Joe Bell:

As a college student exactly feel bored to be able to reading. If their teacher inquired them to go to the library in order to make summary for some guide, they are complained. Just little students that has reading's soul or real their hobby. They just do what the instructor want, like asked to the library. They go to there but nothing reading really. Any students feel that studying is not important, boring in addition to can't see colorful photographs on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Architecture: Form, Space, and Order can make you truly feel more

interested to read.
