The story of Christian thought is essential to understanding Christian faith today and the last two millennia of world history. This fresh and lively introduction explores the central ideas, persons, events, and movements that gave rise to Christian thought, from early beginnings to its present forms. By highlighting the important but often neglected role of women and the influence of non-Christian ideas and movements, this book provides a broader context for understanding the history of Christian ideas and their role in shaping our world. This second edition features a new chapter on liberal theology and reflects recent scholarship in the field.
