Diastolic Heart Failure

Diastolic Heart Failure

Heart failure is the biggest killer in the western world, and the prevalence is expected to increase due to aging of the population. Over the past decade there has been an increasing awareness of left ventricular (LV) diastolic dysfunction as a mechanism of congestive heart failure. This book provides the clinician with essential insights into the epidemiology and aetiology of diastolic heart failure, and will enable them to understand how the condition can be diagnosed. Furthermore, the book will provide insights in cardiac function that are needed to perform and interpret the diagnostic tests, and to provide some guides to treatment choices.
