Topley and Wilson's Microbiology and Microbial Infections, Volume V: Parasitology is now available for single volume purchase. The overall objective of this volume is to enhance, update and strengthen the literature familiar to those working with tropical diseases and to introduce parasitic infections to those in all parts of the world who are less well versed in their importance. The chapters in this text summarize what is known about the most important parasitic diseases of humans, some caused by one species and some, like leishmaniasis, by several.
